Comprehensive Sugar – Epicor Kinetic ERP Integration

Live Integration Option | Data Synchronization Option
Sales Workflow Support

Satisfaction: Results

“

TCP was a true partner in our CRM launch through full integration.

Their team brought a deep knowledge and hands-on guidance that kept the project moving effectively and smoothly, even through complex workflows.

The value TCP brought ensured our system was being set up the right way from day one.

James Palazzi

Director of Systems and Technology
Southern Aluminum

What Separates SugarCRM for Kinetic

Sugar to Epicor Data Integration by TCP

Lead to Order Workflow: CRM & ERP Working Together

Work Where you Are

Work where you are: All of Sugar in Outlook

SugarCRM in Outlook

- ✓ View any Sugar information from Outlook
- ✓ Create & update any Sugar information from Outlook
- ✓ Bidirectional Calendar synchronization
- ✓ Email synchronization
- ✓ Email tracking

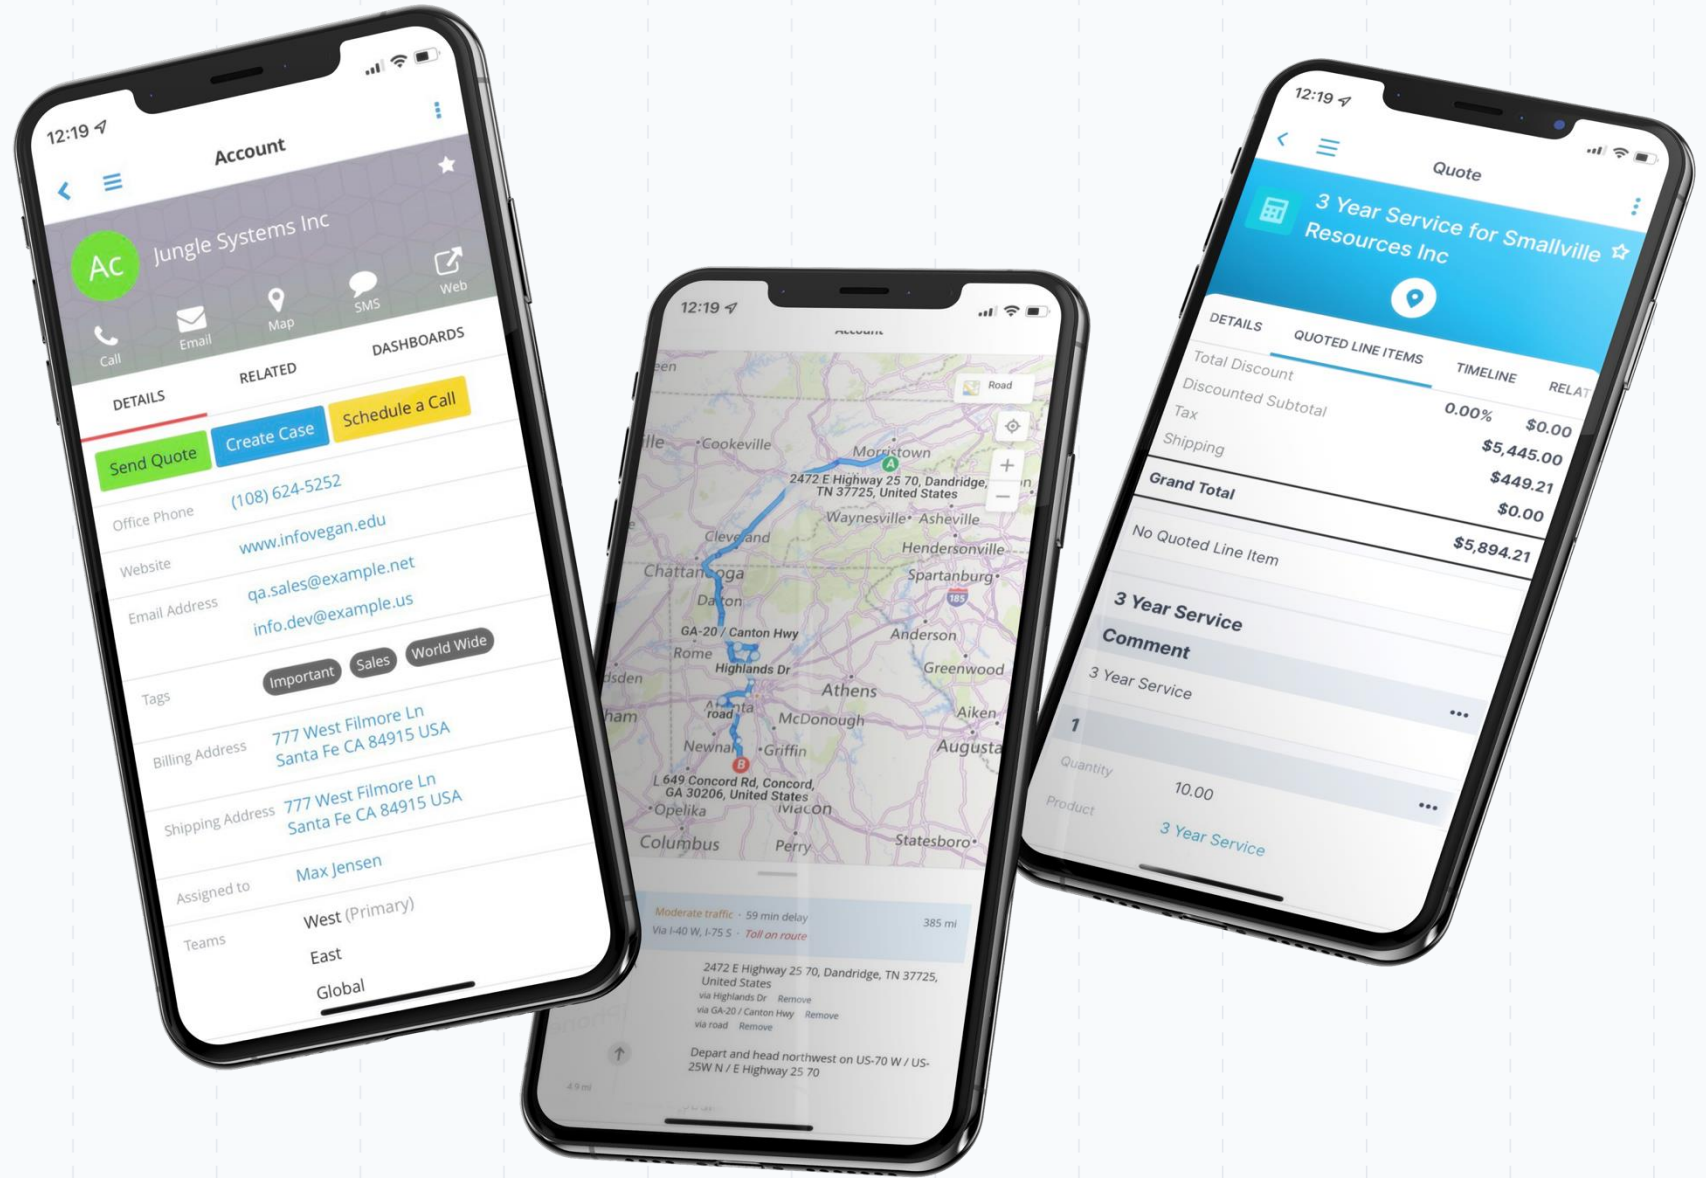

Sugar Connect has been a major improvement for Our team, making it incredibly easy to load sales opportunities directly from our inbox without breaking our workflow.

Joe Towle, Vice President,
West Coast Metals

The screenshot displays an Outlook interface. At the top, a status bar shows 'Webinar Prep' and a URL. Below this is a toolbar with icons for navigation and actions like 'Quick steps', 'Read / Unread', and 'Help with Product'. The main email content shows a message from 'Ron.Canty@outlook.com' to 'Ron Canty' dated 'Mon 3/24/2025 11:44 AM'. The email body contains a request to contact 'Super Abc123' and a signature for 'Ron Tester'. Below the email are buttons for 'Will do, thank you.', 'Thank you, I will do that.', 'Yes, I will.', 'Reply', and 'Forward'. On the right side, the 'Sugar Connect' sidebar is open, showing a search bar with 'ron.canty@outlook.com' and a list of contact details for 'Ron Tester', including title, mobile and office phone numbers, account name, and address.
